

# Medical Waste Disposal

## Pet Meadow helps cut the cost of your medical waste.

**We offer FREE medical waste disposal to our clients.**

One of the biggest challenges of running a pet healthcare facility is waste disposal. Veterinary hospitals generate various waste streams including 'red bag' biohazardous waste, sharps containers, blood and bodily fluids, to name a few. Most of these come with specific regulatory requirements. We can help you with your disposal needs and maintain your mandatory compliance documentation. We provide you with everything you'll need.

### We provide free of charge:

- Delivery of a 20 gallon disposable sharps container for your waste (syringes and needles). No additional charges for heavy containers.
- No time binding contracts to sign or predetermined service schedule. You call us or schedule a pickup when you need us — once a week or once a year.
- Small stickers with generator number and your name and address
- Large stickers same as small but with Pet Meadow information
- Regular waste forms
- Chemo tracking forms
- Red bio bags with biohazard symbols
- 18" x 18" x 24" (or 16" x 16" x 26") cardboard boxes to package your plastic containers
- Bio hazard stickers
- Up-arrow stickers
- Incinerate only stickers

**Call John Tedder to request a new service call or for more information at 609.586.9660.**
